

Point of Reference

All people live from a fixed point of reference. A fixed idea. In all human endeavor, our response, reaction almost always comes from this fixed point of reference. Everything we do, is affected by this. How did we come about creating a point of reference? Was it inherited? Or a learned thing from the books and teachers or from a place of fear and survival instinct.

Every person and every country has a point of reference and all decisions they make for their citizens and their foreign policy is coming from this point of reference.

Now is it the Truth?

Or simply a point held by the people or the country as their interpretation of truth and what is right and wrong. All decisions governing human behavior is based from this interpretation of truth based on their own beliefs and ideologies.

Do humans look into this important aspect? This is particularly revealed in matters of ethics, religion, morality, love and marriage, and a host of others. Humans as a whole, follow what is presented in front of them. Better to follow rather than making decisions for themselves.

Even when we make decisions for ourselves, from which point of reference within ourselves is this decision coming from.

This point of reference is your CAGE.

You are tied into this cage.

*Is it possible for humanity to start
living not from a fixed point of
reference but living from a limitless
space*

*This is where you will find freedom.
Otherwise you will always feel shackled
to a cause or to a belief.*

*The point of reference by which you
live creates a strong energy field,
however narrow it is, it impacts the
emotional and mental body and it sets
up the energy for the interpretation of
what is happening in your life.*

It will also affect the blood stream and this sets up the inability for your body to experience the love and divinity of your soul as a physical experience.

The body you are in is Mother Earth's body and it is inspired and animated by your soul and personality.

Your personality is fully tied in to the point of reference where as your Soul is tied into the limitless vastness of the Cosmos. Simple observation of your mind and questioning of yourself whenever you make a decision, can help to unshackle from this bondage you created for yourself.
