

## Lady Kwan Yin

Blessed one, this is Lady Kwan Yin with Master Irhaan Rae Chandran in temple of the Jinnan temple in Shanghai. I wish to briefly talk about the connection of Moon, the human spirit, human spirituality and human evolution. Way above your head, about 1 meter above your head, there is an energy. In fact it is a geometrical pattern which holds certain energies. This energetic pattern has been there for long time.

We have been brought to the planet as a fortifying force, as a healing force when the DNA was deliberately modified. It is like this, there is a wound and there is a bandage to cover the wound. Same way when the DNA was damaged, the council which oversees the evolution of the planet sent energy here. This energy can rectify the damaged DNA. It is about 1 meter above the head and shaped like a crescent moon and from this moon like a pyramid going up. You draw a crescent moon and above it a pyramid, it is something like that and colour is soft Platinum White. We want you to meditate on this and bring this crescent moon in to your sternum area and chant **Aa..Ra..Ma..** Chant for 144 times Aa..Ra..Ma..

When you do this it will affect all 144 strands of the DNA. And when DNA is affected, naturally the light from the DNA which is the original light code placed in the DNA will be opened and will be available to you. You will feel light inside your body. This will accelerate your Ascension process and also will bring you back to your original energy of your DNA, because in DNA you carry your original energy, the original light. You will be able to access it. This original light means the light of Oneness, the light of Unity. When you integrate this energy you slowly start to feel and know that you are part of All and you will be able to experience it on daily basis more and more.
