

## Aa Ma Ra Teseu - Record Keeper

This is Aa Ma Ra Teseu....name does not matter but what is my function? **I help people to balance their karmic energies.** Imagine a business, you keep a ledger, account book, how much you put in and how much is taken out. At the end of each day you will make adjustment and you will balance it out. The same way how much energy you are spending and how much energy you are getting, in what way what direction? Have you thought of that? If you can look for time management in your life, you will change your life. How much time you are spending on this particular project, how much time for this..this..this. Do you get the returns back? You will say NO. Our life is made up of all these experiences.

You can go back to the records. Akashik Record keeps the records of everything. In the ledger/account book there are lots of indifferences, records are not balanced. Can you add something to bring balance to that? Yes and in that, you become empowered being. Look at the old scale, weighing scale, you put weight here and you put goods in opposite pan. Now the scale is too dipping down. You have to put something here so it becomes centred again. We encourage you to go in to your Akash and balance the imbalanced energies. You will see a huge shift. For example you can balance your energies regarding financial situations, relationship situations, human relation with other people, health situation so that your record of ledger, your account book will be balanced always. We encourage to work with this. It means you can write-off. Let me give another example. Say you owe money to somebody or somebody owes money to you. May be you forgot to pay or you had no means to pay or somebody owes you money but they forgot and did not pay. What you do after 20 years? You just write it off, it is ok, it is gone, I will not get it back. Same way you can write-off many Karmic energies which you created. Because it has finished it's time line. You need not carry forward it again and again. See at the end of a year what the accountant will do, he will balance out everything and say we will never get some money back. Some we will get it back. So what we don't get back, we write off. Irrevocable credit or debit, we say this is a loss for us and release it. Same way you can go into your Akash and release what is not necessary, which has finished it's time line, I release it. This has a huge implication in your life.

One of the implication is regarding marriage. Now many women in the world, because of their belief system in the past and their cultural upbringing, they have married GOD. They have made a promise, GOD I cannot love anybody more than I love GOD so I love only you and I will not get married to anybody else. Now that goes in your Akash. But this was done in old time line and not relevant to the present time line. But what you are doing is instead of writing it off, you are carrying it forward again and again in this life time. In this life time you desperately want to get married but cannot, You may have relationships coming and going but not lasting because you have married GOD in some other life time. I will let it go. More than 40 % women in the world carry this consciousness. Does it make any sense to you, huge impact on your life. Same thing with financial situation, health situation. Because many have promised to GOD that I want to be poor so I can focus on you. May be you have done it in France 500 years back but you still carry the remanence of that energy. Time related goal because it has finished that time line and you should have let go at that time. Simply going to Akash and making a request that is enough.

Many of you sitting here has one thing to release very soon. You have made a promise that I will never take my power this life time because I may abuse my power as I have abused in other life time and you felt guilty about it later. You carry guilt feeling NOW, it is time to release that. Right now one person sitting here was killed in Europe, burnt at the stake. So this person has now completely shut down her spiritual abilities, because if I do, I will get killed. Almost 475 to 500 years back. It has finished it's time line but you are still carrying it forward. This loss you are carrying forward, does it make sense to you? This is how it works.

Now you can call on me and I will help you to re-adjust your account book of energies receiving and spending. You work with me. Take one subject of your life and we will work for few days. Then we will go to next one, next one. Just requires little bit commitment on your part. Important areas I talked about, marriage, health, finance, the ability that I will misuse that energy or I will get killed if I speak my truth again...all need to be released and erase it from the Akashik records. And when you do it, DNA is affected because you are re-programming your DNA with the new information. And over a time, that will become your reality.
