

**CODES OF ASCENSION AND GEOMETRICAL PATTERNS Q & A**

**21. 7. 18**

**Q1: How do I interpret the number patterns that I see often?**

U don't interpret  
Meditate and anchor the numbers into yr physical body.  
Breathe it in into yr body.

**Q2: I keep seeing the number 1144 for a very long time. I feel there is a message for me. How do I know the meaning?**

Meditate and anchor the number into yr physical body.  
There is a general meaning behind these numbers.  
1 means - oneness, 4 means - the four elements  
Thru which you must work to balance the elements  
Breathe in the numbers and anchor the numbers in yr physical body

**Q3: What about colors?**

Colours have a very big significance  
Colours not only affect yr personality, yr emotional body but **colors also feed the soul.**  
Colours can balance the sacred geometric pattern in yr physical body n this is why when u see paintings or anything of beautiful colors u are drawn to it. When we are down energetically u can bring the colors.  
Did u know that?

**3a. Is there any color that we need to avoid?**

Yr body will tell u.  
There is one secret.  
All of you can do this, even now

**Exercise 1: Anchoring the energy of colors into water**

Bring the colors to you by opening yr hands and calling the colors and anchoring the color into a glass of water. Let it stay for 15 minutes and then drink that water. It will bring the energy of the colors into u.

**Exercise 2: Anchoring the spirit of the color turquoise**

I give u an example now.

Open yr palms like this  
And say -  
**I call for the spirit of the color turquoise to come into me**  
Just breathe it in.  
U will feel vibrations in the middle of yr palm.

Now u can breathe in any color

### Exercise 3: Anchoring the spirit of gold

So lets say someone in yr family is very down and **depressed**

U can do yr hands like this

Now say-

**I call forth the energy of the spirit of gold to come into me**

Open the palms and be there for 1 whole minute

**Anchor this energy into yr house, into yr bed, into any place u want healing**

U will feel energy in yr palms.

Now u can bring all colors.

**Colours generate good energy to balance the geometric patterns**

### Exercise 4: Anchoring the spirit of the color purple

Brother Unni u are a master of healing.

Bring the color purple into yr hands and anchor unto **people who are ready to leave the planet.**

Beautiful thing is **each color has a spirit.**

So when u bring the color u are bringing the spirit into yr hands.

### Exercise 5: Anchoring the spirit of the rainbow

Open yr palms like this

Close yr eyes.

Breathe and be relaxed

Say-

**call forth the rainbow colors to come to me.**

**I call for the spirit of the rainbow and the codes of the rainbow to be anchored into my hands.**

U will feel sparkles of energy coming.

Beautiful sparkles.

Shining silver, shining blue many colors like a star

U will feel energy in yr palms.

**Bring this energy into yr house.**

U will have the **rainbow spirit staying in yr house.**

There will be **harmony in the house.**

**Healing, balance, love n yr chakras will be balanced.**

**Yr sacred geometric pattern will get balanced.**

These are beautiful loving spirits.

### 3c. What is yr soul made off?

What ingredients go in into making yr soul?

One of it is the **Rainbow Spirit**

That's why when u see the rainbow u feel so good n nice.

This is because u are remembering the part within u.

### 3d. Do we need to keep balancing our geometric patterns everyday?

Yes, u need to for yr ascension.

U need to keep it in pristine conditions.

The more u keep it in pristine condition the more oneness and purity u will have within u.

### \*\*\* HOMEWORK for each of you.

Please everyday breathe **Rainbow energy and download it to one home.**

Any home, first yr home and then to any other home especially to poor peoples' home.

U are not just bringing the energy, u are bringing the SPIRIT

### 3e. Can we bring this to a whole village or so?

Of course it can be done.

But first we must practice then u can anchor into the whole city, the world to every home that needs healing and balancing. And to Mother Earth too.

### Exercise 6: Anchoring the spirit of the moon

Bring your hand like this

And say -

**I call forth the energy of the moon to come to me.**

Breathe it in

When u feel the energy in yr palms

Then u say -

**I send this energy to all the people who are ready to leave this planet.**

**So that they may leave with peace in their body, mind and soul.**

Can u feel the energy in yr palms?

It is a different energy.

This energy will help people who are ready to leave the body.

So the **soul can go without much fear to the next life.**

Do not be afraid of death.

It's the **moon who comes to greet you when u are born and it's the moon that picks u up when u are leaving yr body.**

I give u one more thing to think.

We have a **big eclipse coming** on the 27/7

It will be seen all over the world.

The projected time is the 27th but this energy has started it's journey almost 71/2 years back. **ACCESS THAT ENERGY NOW!** Then u don't have to wait for the 27th. It is said that the journey of a thousand miles has started at one time. So the journey of the the eclipse on the 27th has started long, long back.

### Exercise 7: Anchoring the energy and spirit of the eclipse of the moon.

Open yr palms like this

But this time **the left hand going up like this**

Yr palms are open upwards

And the head a lit bit tilted

Now say-

**I call forth the energy of the eclipse to come to me.  
And I am calling forth the spirit of the eclipse to come to me.**

U will feel incredible downloads of energy on yr forehead and yr hands.

Strong energy in the middle of yr right palm.

Now when u feel the energy, open yr palms

And the **hand that feels the most energy bring it to the medulla oblongata where the head and the neck joins**  
Gently keep yr hand there.  
Just breathe thru the palms into the medulla oblongata.

You will feel energy coming out to the front of yr forehead  
U may see **sparkles of light coming out and even a sun being created.**

This is why when u look at the Mayans or some of the kings n priests of ancient traditions, they wore a hat that represented the sun coming out from them. The highest energy , potential energy to awaken, **this sun energy is in the forehead during the eclipse especially the lunar eclipse.**

So what I am saying is u don't have to wait for the 27th, u can bring in the energy right now.

Did anyone feel energy in yr forehead. It's very simple, u see.  
This is the power the human beings carry.  
For heavens sake please trust and love yourselves.

U are powerful beings.  
U are angelic beings.  
Do not, do not put yourself down.

Your soul energy contains the energy of angels within u.  
U are angelic beings.  
Yr DNA contains the energy of angels within u.  
U must love every part of yourselves.

Bring in the other 12 of u and join with you.  
U can attain ascension n some of u even this year.  
U can!

I am waiting for u my brothers and my sisters.

This is Metraton.

Final words with Master Yeshua  
My family, open yr heart n receive this light from me.  
The light of Omega  
U are the Omega Man  
But that's not the only one  
I envelop u with **Omega Magnum Consciousness.**

This Magnum Consciousness has never been revealed to the World at this time.  
The **Magnum Consciousness contains the Avatar Codes in the human body.**  
I see u not just having ascension, I see u holding Avatar Consciousness.  
Too grand... u think?

Put on the hat of an Avatar.  
If u feel a calling in yr heart in yr meditation say-  
**I go for the Omega Magnum Consciousness.**

### Exercise 8: Anchoring Omega Magnum Consciousness

Everybody close yr eyes.  
Bring yr attention to above yr 3rd eye.  
Say 6x  
M... A...G... N... U...M

We ask all of u not to stay in the comfort zone.  
Reach for the stars.

U might not have heard about magnum consciousness but today, now u understand.  
This is the consciousness that I carried, Buddha carried, Sai Baba carried.  
So I call all of you Avatars.  
I withdraw my energy at this time.

This is Yeshua

Some of u will feel energy or pressure on yr forehead  
If u have a **calling in yr heart, just meditate with the Magnum Consciousness everyday**  
U will see fire sparks start coming out from yr head.

This **Magnum Consciousness is coming from the very heart of the Creator itself.**  
This is our gift to all of u thru brother Rae.  
Yeshua with the other Masters who are present here today.

## Rae Chandran- Webinar 7: Codes of Ascension and Geometrical Patterns

May Peace be yr experience from this moment onwards.

Choose peace

Choose everything.

U choose to eat what u want is it not?

U choose the shoes, the clothes u want to wear.

Same way choose the emotions u want to experience.

Choose the habit u want to embody.

Choose the actions u want to create.

Magnum Consciousness will help u to do all these.

I AM Yeshua.

Thank you to all of you

Rae: B4 I go I want to tell u something. I did not have any idea what was going to come today But I had a feeling that something special is going to come today, today's message is very profound because it's completely new... first time. And it happened for 2 reasons. All of yr beautiful energy created a beautiful environment for the Masters to come thru to bring these new understanding. It tells me one thing, although u will not admit- U are all advanced students of ascension. This group energy created this channeling , I really liked it. I hope u enjoyed as much as I enjoyed.

Brother Kepler, work with this Magnum Consciousness.

### Q4: Can u share the chant for drought that is happening in Australia now?

There is great drought in Australia. Some farmers committed suicide. We channelled this sound:

#### Exercise 9: Anchoring the energy and spirit for rainfall

The **spirit of the cloud is called IMA**

The **spirit of the mist is called HUWA**

1. Before u chant, invoke these 2 spirits IMA HUWA

If u raise yr hand u will feel incredible energy

2. Then chant this:

EA HAE

LA NUM

MU KO

3. Chant for 45 minutes or 1 hr 45 minutes in 1 sitting.

4. Imagine u are soaking wet in the rain.

If u feel u want to help Earth n farmers where there is no water n rain, u may want to try it out n also teach this to others. **Helping people must become a natural part of yr life. It is one of the fastest way to ascension. Continuously helping without thinking.** How to uplift thru yr smile, gesture or anything.

Thank u ,Thank u, Thank u
