

# INITIATIONS

Initiations are an integral part of spiritual growth. In all traditions, once one has reached a level of spiritual awareness, initiations are given to take the initiative into the next level of spiritual growth.

Initiate means to Open. In ancient times, initiations were given by one's teacher or through special rituals or ceremonies.

There are several types of initiation. Initiation into an order or a sect, initiations to hold a specific essence or vibrations, initiation for recalibrating one's energy field and so on.

All human beings have supporting energies available for them, called Guides. They are in service to you for guiding and helping you on your spiritual growth. Some of you have contracts with your spiritual guides for your present lifetimes and with whom, you have worked in other life streams. Connecting with them can produce beneficial results.

## EXERCISE

There are three important initiations you can request.

There is one stream of energy, held by your guides and it is given to you, when you make a request for it.

Because of free will, they cannot enter your energy field, till you request their presence. The energy they hold for you is called the **OPENING THE GATES**.

Request this energy from your guides and request for your own Initiation to enter into your own Inner Temple.

This initiation involves opening the Seals of the secret door within your being.

This is a door which lets you connect with your Soul Crystal. The Soul Crystal holds your entire Soul Frequency.

This initiation will involve opening the filters of your third eye chakra. Request for this initiation from your guides.

## EXERCISE

There is another important initiation, you can call forth. This is called Initiation of the Rod and is given by the Lord of Karma and the Planetary Logo. This initiation is given, when one is ready to step fully into service of others and earth plane.

The third initiation is performed by the Angelic Beings and is called Bridge of Swords and this signifies the role of accepting one's role in the evolution of this planet and also in accepting the oneness in all.

These three initiations will support you much in your self-realization journey. Additionally, you can request for initiation for
